Ripple Effects for Teens
Address behavior problems and underlying risks

Over 400 learner directed, intervention and skill-building topics fill a multitude of needs
Ripple Effects for Teens is a Comprehensive Intervention System to address both presenting behavior problems and the reasons behind them, from simple skill deficits, to cultural alienation, to personal trauma. Ripple Effects is engaging, accessible, culturally inclusive, learner-centered, and proven to work, especially with students who have multiple risk factors for school failure.

Easy to use with fidelity
The expertise is on the screen. Non-professionals can implement with little training, resulting in positive academic and behavior outcomes. The content customization structure allows local adaptation without loss of fidelity.

Meets model program guidelines
A top rated NREPP SEL program and National Dropout Prevention Center Model Program, Ripple Effects is an evidence-based, research proven program.

Makes documentation a breeze
Students can track their progress with a built in scorecard; Data Manager app makes it easy for educators to track individual and group student progress.

Kids took a big step up in maturity over 7 hours in 7 weeks...huge jumps in thinking, expressing themselves, understanding adults.
Nicky, Staff, Wilson College Prep, Oakland, CA

After using it, I started acting differently.
Alex, student, Seattle Public Schools

RESEARCH SHOWS IT WORKS
Compared to control groups in randomized controlled trials, NIH and foundation funded evaluations show these results from exposure to Ripple Effects:

- Significantly higher grades, especially among previously failing students
- Significantly higher scores for problem solving skills, a resiliency asset
- Significantly higher empathy scores, a resiliency asset
- Significantly lower drop out rates
- Significantly higher scores on perception of harm of alcohol
PROVEN TO RAISE GRADES, INCREASE EMPATHY, REDUCE DROP OUT RATES

Use Ripple Effects for Teens to promote positive school climate and prevent problems before they start.
For Character Education and SEL curricula, use Ripple Effects as a personalized free-standing program or as a lesson-to-lesson supplement to other evidence-based programs.

Use Ripple Effects for Teens to provide targeted prevention in dozens of areas
Use as a stand alone curriculum for violence and bullying prevention, prevention of bias activity, pregnancy prevention, alcohol and tobacco abuse prevention, and prevention of academic failure. Or use as a supplement to other prevention programs.

Use Ripple Effects for Teens to provide individualized, indicated intervention
Whether as part of a PBIS/RTI framework, ISS, Special Education, Alternative Education, or as an Academic Support, Ripple Effects is an unparalleled, proven effective, culturally responsive way to provide personalized, supportive interventions at far less cost than other student support services.
